---

## PROJECT

### School Website

- Built a simple and responsive school website using React.
- Designed pages such as Home, About, Facilities, and Contact.
- Implemented a clean and user-friendly UI for better user experience.
- Used reusable React components to keep the code organized.
- Ensured mobile-friendly design using CSS.
- Deployed and tested the website for proper performance.

### EDUCATION CONSULTANCY WEBSITE

- Developed a responsive education consultancy website using React.
- Created pages such as Home, Services, Courses, and Contact.
- Designed a clean and easy-to-navigate user interface.
- Used reusable components to improve code structure and maintainability.

### YOUTUBE CLONE (REACT)

- Built a YouTube-style video platform using React.
- Implemented a home page with video listings and thumbnails.
- Added video player page with play, pause, and fullscreen features.

---
